

Dear Church Friends,

Please join us for a Baby Bottle Campaign! Together we can create awareness about the Center and provide FREE services to help mothers choose life for their preborn children.

Baby Bottle Campaign—How It Works

1. Your church and the contact from the Pregnancy Help Center choose a weekend to hold the campaign.
 2. The Center will furnish empty baby bottles and with the help of Center/church volunteers, bottles will be distributed at the end of all weekend services or Masses. Each bottle is labeled with the collection date (usually three weeks later).
 3. The Center supplies bulletin announcements for the campaign.
 4. If permitted, the Center provides a speaker at the end of service or Mass or video to explain the campaign and create awareness.
 5. Center/church volunteers collect the bottles on the pickup date.
- All funds go directly toward providing free services like pregnancy testing and ultrasound exams to women in the South Bay.

Per Focus on the Family, 70% of women who had an abortion are Christian and 43% of those attend church. This campaign has the potential to change the mind of an abortion-vulnerable woman and save her preborn baby.
